

#2 5G SMALL CELLS LINKS AND VIDEOS / 8-22-17 Update

There's more to the science of 5G than what wireless telecom is revealing. 5G is a powerful wireless frequency in the millimeter wave spectrum (which means it doesn't travel far) that has been proven to cross the blood brain barrier, and break down DNA. Blood is made of iron, very conducive and subject to magnetic pulse shifts. 4G affects fluids in the body while 5G affects electron spin in the body, and the way electrons bind to hemoglobin to prohibit proper oxygenation to the body.

At one end of the extreme 5G has been described as an "artificial sonic control program and frequency fence installed into the planetary field" to accommodate the touted "Internet of Things" (look up General Petraeus famous quote) or by communication signals being put upon the carrier frequencies. While the end of the other extreme says "bring it on, we want faster downloads."

5G bandwidth is the frequency used by military in crowd control and dispersal, causing skin to heat, blisters, 2nd degree burns. See <https://jnlwp.defense.gov/About/Frequently-Asked-Questions/Active-Denial-System-FAQs/>. British journalist David Icke has said about the IoT (Internet of Things), "What controls A.I. controls everything ... The same artificial intelligence that is planned to control the internet will control everything connected to the internet. They have to have certain levels of power and frequency in their communication system. Did I mention 5g?"

The FCC's/Verizon's agenda is for 5G Transceivers on telephone poles every 500 feet - that's how far millimeter wave travels. In most cities zoned for single family residential, every 500 feet nodes are currently being placed around schools, churches, retirement homes, neighborhoods – and people are not being informed. SmartMeters are also 5G; people can opt out. Other cities are reflecting best practices around wireless technology but Burien is way behind the game. See CA below.

CITY OF BURIEN, WA // CITY COUNCIL MEETINGS // ADOPTION OF ORDINANCE 679 // CITIZEN OPPOSITION // VOICE NOT SOUGHT

How to Oppose Small Cell 5G Towers
