I am glad we are finding immediate solutions ~> I'd also like to make
sure this doesn't prevent us from doing longterm things (limited \$).

Question: At this point in the budget ~> what are productive comments
to make to City Council to make sure we have funds to solve these issues?

Where will the summary from this meeting be posted?
Productive conversations, huge issues. It was supposed
to be health + safety? Safety was less discussed, how to
help both homeless people AND residents of community

These 4 broad ideas didn't address the community +
the residents. We need central communication with the
residents so tax payers know what is happening re:
homeless + transients.

CB 118794 is off the mark with ~~the~~ its focus on "suitable"
city property for camping and opening all city property, including
all parks, to camping. Rather the focus should be on (over)

establishing allowable areas for camping.

This will focus needed services for the homeless.

And it will help ensure safety of neighborhoods,
achieving "Safer, Better" /

Though there may be legal concerns, established camps
are already on city property. ~~It is~~ Legal concerns
are not a valid reason for not establishing allowable
areas for camping on City property.

2) Opening statement before breaking into small groups. Use it as a way to educate folks - why are folks in vehicles versus tents versus shelters? Remind people ~~were here~~ why were here. It's bigger than ourselves.

3) Too much reliance on the police for work we shouldn't expect them to do, nor do they have the training. Let the police clean up their own house first, moreover. Put ~~it~~ into neighborhood mental health.

4) Emphasize solutions - that we're all smart enough to contribute; otherwise, we're just complaining? Wow.

5) What's the difference between healthy skepticism and a sense of entitlement?

6) How can I, as one person, respond compassionately?

I Am very torn about supporting any of these measures around
immediate harm reduction because I feel that we have had
poor execution ~~and~~ around many of the measures that
are already in place or have recently been enacted. This,
coming from someone who actively volunteers for Mary's Place, Harmond House,
etc.

Would you like to be contacted to schedule an individual meeting with Councilmember O'Brien regarding these issues? yes If you have selected this, staff from Councilmember O'Brien's Office will contact you directly.

Also, I see no metrics around success (moving out of homelessness), no evaluations, and no money. Service providers and no coordinated efforts.

As for Public Safety -

I do not feel that "Public Safety" really ~~can~~ hit home until your kid narrowly misses stepping on a needle barefoot or having your home broken into while you are home.

→ Other abstracts need to share this value and solutions.

Given our lack of ability to execute well, I would have a very difficult time supporting safe communities sites. I already have a dealer in my neighborhood - which the neighborhood believes increases crime.
